

INTUITIVE BOWEN FOR HORSES IS COMING TO NEW ZEALAND

A wonderful and unique healing package for you to learn for your horse is coming your way in late November 2009. You could use this course to keep your horse happy and healthy for high performance, or to give a much loved four legged friend deep physical and emotional comfort, to help a horse with physical problems recover or add this excellent modality to other healing tools that you already have.

When you add together the three ingredients that are in this course, something very special happens. The kind of healing that happens when you combine the power of Bowen muscle therapy, with the precision of the pendulum and the wonder of horse communication will just knock your socks off.

Learn how to do this special approach to Bowen muscle therapy for horses with Jenny Pearce of Bobby's Diaries and Zen Connection with Horses fame.

Learn how to use a pendulum to prioritise the gentle, non-invasive Bowen 'moves' and get the confidence that you are doing it exactly right. Develop a deep connection with your horse with horse communication and learn how to release old emotional trauma from your horse with that connection.

The course is three days and being held in Wainuiomata and Upper Hutt areas on the 28th, 29th and 30th November 2009. The cost is \$460 per person and includes an extensive course manual. You bring your own horses and watch their problems melt away. We'll be travelling around the Wainuiomata and Upper Hutt areas to get the large number of horses that we need for you to practise on.

Bowen by itself is an excellent modality for the clearing away of muscular-skeletal problems in horses, but that is not the only effect. It releases muscle spasm and emotional tension, it gently realigns bones, it has a positive and healing effect on the underlying organs.

But when you add the precision of testing with the pendulum, it takes Bowen to a whole new level of power. And then when you add the trauma release aspects of the horse communication work, you have an awesome and incredibly powerful approach to healing for your horse.

To see a horse with a simple and common condition like a sore back get such quick and easy relief is such a buzz.

Jenny says, " I have many stories of amazing healing that has taken place with Bowen muscle therapy, some of them bordering on the miraculous – long term lameness gone, muscles moving freely, muscle spasms released, bones sliding back into place, breathing improved dramatically, colic turned off like throwing a light switch, a dog who had been paraplegic for 3 months walking again. But the best story I have about the power of this healing is about one of my students."

Here's the link to my website to read that story:
